Sandhedsord fra Schweiz

Margrit Dons

Welcome!

We are your specialist for trucking and special transports in the region Switzerland - England - Switzerland, Scotland and Ireland.

As a neutral swiss haulier we exclusively work for reputable forwarding agencies and transportation companies.

Our fleet consists of over 30 vehicles, including our own megatrailers and selected sub-contractors. To guarantee our high quality, we allow only the best transportation companies to drive for us.

Additionally, we arrange special transports, carry out permit procedures and professionally accompany your special goods.

The history of our company

Bob Dons left the Dutch Marine in 1965. He immediately acquired his Drivers Licence and started working for the special-transport company Stooft in Holland. There, loads up to 120 tons were part of his daily business.

Today, this valuable experience is key for his success in building up and leading the company DONS TRANSPORTE AG as managing director.

In 1980 he met his wife and business partner in Switzerland. They decided to start up their own transportation company.

In 1985, DONS TRANSPORTE AG was founded in Basle/Switzerland. In the beginning, work was done with only one vehicle, a small office and the big vision of establishing a high-quality company in the very competitive marketplace of Basle/Switzerland. Motivation, hard work and total focus on the goal paid off.

In 1985, DONS TRANSPORTE AG was founded in Basle/Switzerland. In the beginning, work was done with only one vehicle, a small office and the big vision of establishing a high-quality company in the very competitive marketplace of Basle/Switzerland. Motivation, hard work and total focus on the goal paid off.

Today, DONS TRANSPORTE AG has a fleet of over 30 trucks at her disposal. This includes company-owned trucks with megatrailers and selected sub-contractors. The company is widely known as swiss high-quality haulier.

The list of clients is excellent: Mammoet Europe BV, Mammoet Deutschland, ABX Schweiz, DHL Basel, Ballauf & Schopp , Europa Worlwide UK, RH Freight Ltd, Hauser UK Ltd, Interfracht/Tolimpex, Natural, Crowe, Nord Transport, Kühne und Nagel Schweiz, Nauta Basel, UPS Switzerland, Fiege Goth , Gondrand, Panalpina Kloten and many more...

For Bob Dons, controlled growth was the key business strategy. His goal was to keep on expanding at a very slow pace, so that a high-quality service could be guaranteed for at any time in the way DONS TRANSPORTE AG is known for. This principle proved to be very successful.

Bob Dons on his business philosophy: "I do the planning, the drivers do the work!"

Because of his grand experience as a Driver, Bob Dons knows exactly what is possible and what is not. For many clients, this know-how is an important reason to work with DONS TRANSPORTE AG. But it is also a reason why experienced drivers prefer to work for Bob Dons.

Our fleet

The actual fleet consists of over 30 vehicles, including our own special trucks and those of selected sub-contractors.
