Urban development consultant at Helsingør
KommuneCopenhagen Area, Capital
Region, Denmark
Architecture & Planning

Summary

As a MSc. in Geography & Geoinformatics my main academic interests entail urban planning perspectives and related socio-economic processes. More specifically I have experience working with urban regeneration / planning, spin-off effects in city districts and regional development. The projects have mainly focused on physical and social challenges.

Experience

Urban development consultant
Helsingør Kommune

May 2013 – Present (1 year 9 months)Copenhagen Area, Denmark

I work as an urban development consultant in the department for planning in Helsingør Municipality where I prepare professional work for the local politicians. The department is part of the administration at City Hall. The city of Helsingør (Elsinore) is a cultural Mecca with Kronborg castle as the cornerstone along with the cultural harbor area where many activities for the public are carried out. My job responsibilities, among other things, include:

- economic analysis and return on investment in relation to strategic planning
- strategy work / development work in relation to physical planning
- project management work
- negotiator / dialogue role in the context of real estate owners, developers and investors

Project employee

Statens Byggeforskningsinstitut, Aalborg Universitet

July 2012 – February 2013 (8 months)Copenhagen, Denmark

Worked with numerous projects concerning the built environment in a European context. More specifically the work entailed investigating urban regeneration processes through socio-economic factors and renovation of existing buildings focusing on energy consumption patterns and environmental sustainability.

Student assistant

Statens Byggeforskningsinstitut, Aalborg Universitet

February 2011 – March 2012 (1 year 2 months)Hørsholm, Denmark

Carried out a series of longer qualitative research interviews with specific residents and shop owners at Frederiksberg (a part of Copenhagen). Data was used by SBI and COWI to evaluate the tentative effects of the urban renewal at Frederiksberg. Responsible for updating a homepage in European Urban Knowledge Network (EUKN).

Student assistant
Sundhedsstyrelsen

October 2008 – June 2010 (1 year 9 months)Copenhagen, Denmark
Helped develop a pilot program with colleagues on common EU guidelines for reporting adverse events in hospital care. Designed digital surveys for evaluating the process of reporting adverse events.

Volunteer

CARE Danmark

July 2005 – September 2005 (3 months)Hanoi, Vietnam
Assisted in planning, monitoring and evaluation of a Danish financed project on establishing a simple water supply in a small province north of Hanoi.

Education

University of Copenhagen

Geography & Geoinformatics (MSc), Human Geography
2010 – 2012

Master thesis written at Statens Byggeforskningsinstitut, Aalborg Universitet examines the social inequality in Copenhagen Municipality by analyzing a policy for vulnerable city districts.

Activities and Societies: Co-founder and board member of the Student Society of Human Geography at the Department of Geography, Copenhagen University.

Fundraising and planning of academic events in the Copenhagen area.

University of Copenhagen

Geography & Geoinformatics (BSc), Human Geography
2006 – 2010

Bachelor thesis analyzes innovation processes in the Medicon Valley region focusing on medical development and enriched foods.

Allerød Gymnasium

Matematisk studentereksamen

2002 – 2005
